This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

WHO'S WHO

IN

NEW ENGLAND

A BIOGRAPHICAL DICTIONARY OF LEADING LIVING MEN AND WOMEN OF THE STATES OF MAINE, NEW HAMPSHIRE, VERMONT, MASSACHUSETTS, RHODE ISLAND AND CONNECTICUT

PREFACE

In this volume are gathered life-sketches of the nearly Ten Thousand leading New Englanders. The aim has been to include, as nearly as possible, all the living men and women who, at the present time, occupy places of distinctive creditability in the New England states—the men and women whose worth and work count for most in all worthy lines of effort; and the sketches contain just those things every intelligent person wants to know about conspicuous New Englanders in every walk of life. Each sketch is a plain narration of facts, shorn of verbiage. There is not a word of praise or criticism in the volume; no fulsome eulogy, no unnecessary comment. The fewest words possible have been employed to present the salient features in each career, with a view to combining brevity with lucid statement.

Nearly two years of painstaking labor have been consumed in bringing together these personal data, and although the task has been both tedious and difficult it is confidently believed that the result, here presented, will not only justify the large expenditure of time, labor and money required to produce the volume, but will also meet the reasonable expectations of those for whom the compilation is intended to serve as a useful book of reference.

There have been numerous biographical compendiums, so called, pertaining to the New England states, separately and collectively, but none has approached the present volume as to the number of its representative living subjects, nor as to the completeness and authenticity of essential details concerning them.

The thousands of persons who are familiar with Who's Who in America (and who is not familiar with it?) will at once recognize in that well-known standard biographical dictionary of notable living Americans the prototype of WHO'S WHO IN NEW ENGLAND. That publication is, indeed, the model upon which WHO'S WHO IN NEW ENGLAND has been fashioned, with one distinct difference: Who's Who in America has to do with the notable men and women of all the states in the union—living Americans of national and international prominence—whereas WHO'S WHO IN NEW ENGLAND deals only with residents of the New England states, or with persons who are closely identified with the interests and activities of those states. It will be seen, therefore, that while the present volume owes its inception to its more

pretentious predecessor, it by no means attempts to supplant or supersede the latter, but aims, rather, to serve as a useful supplement and companion to the larger work. This will be better appreciated when it is known that Seven Thousand and Seventy of the personal sketches in the New England book are not contained in the national volume, and indebtedness is acknowledged for nearly Twenty-five Hundred sketches borrowed from Who's Who in America.

With Who's Who in America and WHO'S WHO IN NEW ENGLAND side by side on the reference shelf, any library, private or public, will be enriched with biographical data, many of which are nowhere else in print, and most of which are nowhere else accessible for reference purposes in any form.

The information contained in this volume has been procured, almost without exception, from first hands. Each sketch was submitted for revision and correction, and in nearly every instance received the approval of the subject of the sketch.

Persistent effort has been made to procure the requisite data from all persons entitled to a place in the book, and if names are missing which should appear, the fault must be charged to those persons who failed to furnish the necessary information, although frequently requested to do so. Instances of this kind, however, have been comparatively few, and a large majority of the persons applied to courteously and generously responded.

It is the present purpose of the publishers to make such periodical revision of WHO'S WHO IN NEW ENGLAND as may seem to be called for by those who find the book useful. With this purpose in view, suggestions of appropriate new names and other improvements are invited. Such suggestions will be thankfully received and given due consideration.

Many valuable helps and suggestions have been extended to the publishers of WHO'S WHO IN NEW ENGLAND and occasion is here taken to express grateful recognition of these favors. Among those who have extended special courtesies are the following: Gen. Charles H. Taylor of the Boston Globe; Mr. Marquis F. Dickinson and Mr. James E. Cotter, well-known lawyers of Boston; Edwin A. Grosvenor, LL. D., Amherst College; Mr. B. O. Flower, editor of The Arena; Mr. Nathan Haskell Dole, author; M. H. Richardson, M. D., and Clarence J. Blake, M. D., Boston.

KEY TO PUBLISHERS.

The letters and figures appended to the titles of books listed in numerous personal sketches in this volume are intended to indicate the publisher. These key symbols have been used whenever the requisite information has been furnished by the authors. Thus, under the name of "Churchill, Winston," will be found in the list of his books: "The Crisis, 1901 M1.." This indicates that the book was published in 1901 by The Macmillan Co., of New York. The Key is the list which follows, the name of The Macmillan Co. being found under the letter "M" and No. 1 under that letter.

A

1 American Book Co., New York.
2 D. Appleton & Co., New York.
3 Arena Publishing Co., Boston.
